The Enemy is Inside the Gates
and has been for a very long time.

BY INTERNATIONAL INSTITUTE FOR SUSTAINABLE DEVELOPMENT

The International Institute For Sustainable Development is headquartered in Winnipeg, Manitoba, established in 1990. Most Canadians have never heard of it but it is a main implementation center for the UN globalist agendas.

Both Maurice Strong and Jim McNeil, both deceased, were part of the IISD.

Jim McNeil was the main author of Our Common Future, the Brundtland Report, with input from Strong and Rockefeller.

Sustainable Development

"Sustainable development is development that meets the needs of the present without compromising the ability of future generations to meet their own needs"
Brundtland Commission
"Our common future" 1987

**Before
Brundtland
became part
of the UN,
she was
President of
Norway and
also Vice
President of
Socialist
International**

Before Guterres became

Secretary General of the UN, he was President of Portugal and President of Socialist International.

Both Brundtland and Guterres are members of the Madrid Club created by Kim Campbell, ex PM of Canada.

The Club of Madrid is a large collection of ex Presidents and Prime Ministers pushing the UN globalist agendas.

Sales pitch by Rockefeller and Strong to move the Global gov. forward via Beyond Interdependence—“Remarkable — MacNeill and his coauthors vividly demonstrate that human activities have become so huge that in many instances they are of the same scale as natural processes... Economic activities centered in the European Community, North America, and Japan cast an ‘ecological shadow’ that is worldwide and we need to think in such worldwide terms when we evaluate our own performance.” David Rockefeller North American Chairman, Trilateral Commission

“This book couldn’t appear at a better time... Provides the most compelling economic as well as

environmental case for... reform that I have read—The case for broadening the concept of national security to include [environmental] threats is compelling and makes the message of the book imperative at this critical time.” Maurice Strong Secretary General, United Nations Conference on Environment and Development

I highly doubt you will hear any of this info coming from the Party Puppets during election debates.
They all have a UN globalist hand up their butt.

The politico does not serve the people and never has.
Time people wake to that simple Truth/Fact.
