Rural Ontario being "SOLD OFF" to China by OUR own Government????

By thebiggreenlie (<http://thebiggreenlie.wordpress.com/author/thebiggreenlie/>)

Ontario Mayors are now "salesmen" for OUR lands and resources???????

The "end-game" appears to be on track for Ontario's Rural communities that have been virtually ruined by successive Provincial Governments with their Agenda 21, Sustainable Development attack (<http://thebiggreenlie.wordpress.com/2012/05/18/mcguinty-intentionally-destroying-rural-ontario/>) on municipalities across Ontario. De-value properties, make them virtually unliveable with Green Wind projects, raise cost of living beyond ability to pay and when that is completed put up a huge "FOR SALE" sign on it for a foreign country to bid on it!

Here's the formal plan for "Immigrant Placement" within South Western Ontario (<http://www.immigrantnetwork.ca/site/whitepapers/OIN%20Whitepaper%202%20-%20Immigrants%20and%20Business%20Succession.pdf>)" where the lands have been laid "fallow" (<http://dictionary.reference.com/browse/fallow>)" by these Government policies!

Here is a "snippet" from the above document that shows clearly how the Government views a true Canadian: "

"Clearly, a Chinese immigrant possesses an advantage here over the typical Canadian."

Is there any reason that 7 Mayors of Ontario's Rural Towns have been "invited" to go on an "Investment" tour in China for ten days when thousands of Private Sector Companies have gone this way for years at their own expense for their own markets?

It seems to have started back in October at the Canada China Business Council in Markham where 13 Ontario Mayors attended a sales pitch by Chinese reps to lure them to China for negotiations over LAND available in Canada..... for WHAT?

*Remember that these people are **OUR** elected representatives supposedly elected to represent our needs as citizens of each particular Municipality, NOT the interests of a foreign Government!*

Agenda 21 (Sustainable Development (<http://thebiggreenlie.wordpress.com/2012/05/20/if-you-dont-know-what-agenda-21-is-or-are-afraid-to-ask-read-this/>) is not a very well liked word within Municipal Offices these days. As the public becomes more informed of what has been going on behind their backs inside Municipal politics and that is the de-population of Rural Ontario which is Agenda 21's main purpose, Councillors become more agitated and nervous when confronted by informed citizens.

Just try it. Call your Municipal office and ask them if they are following **Agenda 21's local Government initiatives** (http://www.crossroad.to/text/articles/la21_198.html). You will be met with denial and when pushed, a rather aggressive "hang up"! If you get to this point then ask the Council about this little nugget of "Sustainable Development" that every Council in Ontario should have on it's book shelves: **FCM's Green Municipal Fund** (http://www.fcm.ca/Documents/tools/GMF/SS_PassingGo_EN.pdf).*

Here's a "snippet" of this document which clearly shows that Municipal Councils promote and adhere to Agenda 21 proposals in case your Councillor claims "he doesn't know what your talking about!"

***Examples of SCPs: (Sustainable Community Plans)**

- integrated community sustainability plans (ICSPs)
- long-range sustainability plans
- **Local Agenda 21 plans**
- local action plans (for example, greenhouse gas reduction plans)

That publication will lay out the United Nations engineered plans for virtually all loss of control over YOUR lands and resources for the "better good"!

*How "entrenched" in Canada at all levels of Government and Business is **Agenda 21** and it's tentacles that are literally aimed at redefining our quality of life, our future and our present day Rights and Freedoms that have been guaranteed by our forefathers who actually laid down their lives to ensure a Free and Democratic Canada?*

Well, here is just one "think tank" all dressed up to represent large business and Education centres in order provide Global Governance guidelines for less than "enlightened" politicians.

Centre for International Governance Innovation
(http://en.wikipedia.org/wiki/Centre_for_International_Governance_Innovation)

CIGI (<http://www.cigionline.org/>)

Spend some time on this little gathering and notice some "players" like RIM Canada and University of Waterloo who have millions of \$\$\$ invested in setting up a policy panel which in turn advises Political leaders on how to manipulate the lands and resources that WE live on for investing in foreign countries.

*For a foreign Government to **literally pay the way for an elected official** to attend any type of negotiations regarding OUR sovereign lands could actually be perceived as **bordering** on treason.*

The same type of trip in Vancouver triggered some outrage and obviously these Ontario Mayors are about to commit the same indiscretion.

Lower Mainland mayors' China trip broke the law, experts say

(<http://www.canada.com/vancouvernews/news/westcoastnews/story.html?id=1ddb4d59-f2ee-448e-aa1e-fd6c7891cc8e>)

Seven Lower Mainland mayors who went on a privately funded trip to China last month believed — as did most of their councillors — that they could accept the trip because it was being paid for by someone who was never going to do business in their municipalities or in Canada.

BY THE VANCOUVER SUN MAY 4, 2007

Seven Lower Mainland mayors who went on a privately funded trip to China last month believed — as did most of their councillors — that they could accept the trip because it was being paid for by someone who was never going to do business in their municipalities or in Canada.

But municipal experts and some critics say the new Community Charter legislation makes it clear that council members should not accept any gift from anyone, doing business or not, that is coming to them because of their positions.

Here is a report on an Ontario October meeting of Toronto Mayors that "mirrors" the Rural Mayor's meeting with the Canada China Investment Association.

Mayors discuss doing business with China (<http://www.yorkregion.com/news-story/1430664-mayors-discuss-doing-business-with-china/>)

China forum

STAFF PHOTO/SJOERD WITTEVEEN

Aurora Mayor Geoff Dawe (from left), Barrie Mayor Jeff Lehman, Chatham-Kent Mayor Randy Hope, Georgina Mayor Robert Grossi, London Mayor Joe Fontana, Markham Councillor Carolina Moretti, Niagara Falls Mayor James Diodati, Canada China Business Council executive director Sarah Kutulakos, Parry Sound Mayor Jamie McCarvey, Pickering Mayor Dave Ryan, Richmond Hill Mayor Dave Barrow, Vaughan Councillor Sandra Yeung Racco, Waterloo Mayor Brenda Halloran and Whitchurch-Stouffville Mayor Wayne Emmerson gathered at the Hilton Suites in Markham to discuss doing business with China.

Aurora Banner *We want a piece of you, China.*

That's the key message from the sales pitches of 13 Ontario mayors who met in Markham Tuesday to discuss that country's economic impact during what was billed the Mayors' Forum on China.

Even if you don't like what you see, working up an appetite for China is better than saying you are not interested, **Canada China Business Council** executive director Sarah Kutulakos said.

"Even if you don't want to do business with China, you need to have a China strategy," she said. "It's in your value chain, even if you pro-actively try not to do business with China."

Six York municipalities had representatives at the forum, including Georgina Mayor Robert Grossi, Aurora Mayor Geoffrey Dawe, Markham Mayor Frank Scarpitti, Richmond Hill Mayor Dave Barrow, Vaughan Councillor Sandra Yeung Racco and Whitchurch-Stouffville Mayor Wayne Emmerson.

Vaughan Mayor Maurizio Bevilacqua was in Italy on a trade mission.

Mayor Scarpitti couldn't stay for the panel discussion and was represented by Councillor Carolina Moretti.

Other mayors in attendance included those from Barrie, Chatham-Kent, London, Niagara Falls, Parry Sound, Pickering and Waterloo.

Developable greenfield, the largest vacant employment lands in the GTA, a future downtown at Jane Street and Hwy. 7, York University and its location as an economic gateway are some of the attributes Vaughan has to attract Chinese investments, Ms Yeung Racco said.

Now here is the announcement

MAYOR KRAEMER HEADING TO CHINA FOR TRADE TALKS (<http://www.independent.on.ca/site/?q=node/3460>)

10/04/2013, 11:20

By Barb McKay

Kincardine mayor Larry Kraemer will travel to China in May to discuss **trade opportunities**.

He is one of a handful of Ontario mayors invited on the 10-day trade mission by the Canada China Investment Association. Others invited include mayors from Erin, Belleville, Petrolia and Niagara-on-the-Lake. The group leaves May 15 and will spend time in Shanghai and Beijing before returning home on May 25.

"They were very clear that they are looking for trade opportunities – bilateral trade – and they are looking at Ontario," Kraemer said when he told Kincardine council about the trip during its meeting last Wednesday.

Costs associated with the trip, minus airfare, are being covered by the China Canada Investment Association. Bruce County council has agreed to allow Kraemer to use money from his conference fund to cover the cost of airfare.

Councillor Ron Coristine said the trade mission should involve individuals who are entrenched in Kincardine's economic development planning. Kraemer said he had made his involvement with the trade mission known to the **Penetangore Regional Economic Development Corporation** (<http://www.predc.ca/>) (PREDC), but said he was lucky just to be invited on the trip.

Report continues here ... [thebiggreenlie](http://thebiggreenlie.wordpress.com/author/thebiggreenlie/) (<http://thebiggreenlie.wordpress.com/author/thebiggreenlie/>).

Has anybody mentioned that the credibility of this site might increase with the proper spelling of 'corruption' in its title?

Harper and his government are bunch of peasants from the prairies who came to power without a clue about politics. When everybody else tighten relations with China, Harper declared cold war on it, appointed anti-China ambassador, etc. Like he was in a position to do that ! It took this idiot many years to come back to his senses and now he's reversed his stance. Now he's running around China like a little dog begging for a treat.

Of course Harper is selling Canada to China. So are US and EU. And it's only starting. China has all the money, we have all the debt.

Howdy, i read your blog occasionally and i own a similar one and i was just wondering if you get a lot of spam responses?

If so how do you prevent it, any plugin or anything you can recommend?

I get so much lately it's driving me insane so any support is very much appreciated.
